About ASHRAE

ASHRAE, founded in 1894, is a global society advancing human well-being through sustainable technology for the built environment. The Society and its members focus on building systems, energy efficiency, indoor air quality, refrigeration and sustainability within the industry. Through research, standards writing, publishing and continuing education, ASHRAE shapes tomorrow's built environment today. ASHRAE was formed as the American Society of Heating, Refrigerating and Air-Conditioning Engineers by the merger in 1959 of American Society of Heating and Air-Conditioning Engineers (ASHAE) founded in 1894 and The American Society of Refrigerating Engineers (ASRE) founded in 1904.

In 2012, as part of a rebranding, ASHRAE began doing business as "ASHRAE" vs. using its full legal name of the American Society of Heating, Refrigerating and Air-Conditioning Engineers. Use of ASHRAE reflects the Society's worldwide membership and that services will continue evolving globally.

Dear Sir / Madam,

Greetings from ASHRAE Chennai Chapter!

ASHRAE has lined up a EDGE program - Technical program on Energy Efficiency to cater to professionals working in various HVAC & R industries.

This is a national event planned in association with other major associations related to HVAC & R. It will attract a good number of working professionals who are among consultants and contractors.

ASHRAE offers a good platform to nurture great business opportunities for business providers to meet customers, the decision makers and researchers in addition to opening avenues to meet such people from all over country during this event. The vendors can interact directly to the members by networking for bettering their business prospects.

ASHRAE Chapter invites sponsorships for this EDGE program with which opportunities for great networking possibilities are thrown open.
